

## THE SEMET-SOVAY HAS NEW PROCESS

Will Extract a Light Oil From Coke Smoke at Dunbar.

### IS A HIGH EXPLOSIVE OIL

Naphthaline is the Gas Taken Out to Make the Oil and This Removes Bad Feature From Coke Gas Which Was a Detriment to It

Preparations are being made at the plant of the Semet-Sovay Company at Dunbar to extract another ingredient from the coke smoke. Already, by means of the retort coke ovens, the company is getting coal tar, ammonia and a number of other substances out of the waste from the ovens, but the latest plan is to extract a light oil. The plant to extract this has been in course of construction for some weeks past and will be completed probably next week.

The light oil will be extracted from the naphthaline in the gas that the ovens generate. Not only will an oil of commercial value be obtained but a destructive element will be extracted from the gas.

At the present time the most objectionable feature of the gas produced from the retort coke ovens is the fact that it quickly eats through the pipes and also leaves a deposit which clogs them.

Experiments which have been made show that with the naphthaline extracted in the shape of a light oil the gas will be cleaner and will not be so hard on the pipes.

The process of extracting this oil from the gas is not, as is thought, out some danger because of its high explosive nature. The oil after being refined is said to possess a higher explosive quality than gasoline. It is, however, a reddish color.

If it is demonstrated that the destructive properties of the gas are extracted when the light oil is recovered it is possible that Dunbar borough may give the gas, "another trial." It was tried once but abandoned because the pipes were so quickly eaten away and were apt to clog. Just now the gas from the Semet-Sovay retort coke ovens is more than sufficient to supply the fuel for the continuous glass.

The Semet-Sovay Company is a subsidiary concern to the Sovay Process Company of Syracuse, N. Y. extensive manufacturers of chemicals, coal tar products, potash, road-dressings and a score of other acids and alkalies.

### LUNACY HEARING

For Guardian of B. Frank Smith Set for November 1

UNIONTOWN, Oct. 12.—Judge R. C. Umbel this morning fixed Tuesday, November 1st at 6 o'clock as the time for hearing the facts in the petition of Alverde C. Smith for appointment of a guardian for B. Frank Smith.

The petitioner was presented today by Attorneys Johnson and Rush and sets forth that Smith is 42 years of age and has become so ill by reason of a disease and other causes, his will reason and discretion is so impaired and defective that he is unable to control his conduct and is unable to take care of his property and estate. In consequence, he is liable to dissipate or lose the same and become the victim of designing persons.

His property is said to consist of a house and three acres of land, the undivided one fourth interest in a 100-acre tract of land in Georges township, a like portion of three houses and lots in Fairchance \$6,000 in money and bonds due from his father's estate aggregating in all about \$10,000.

The petition further states that Smith has a wife but no father, mother or children, that his next kin are a brother, D. Stanley Smith, of Georges township, and two sisters, Mrs. Louise M. Nesser of the same township and Mrs. Mollie E. Nichols of What Cheer, Iowa.

Written notices of the coming hearing were ordered served upon these relatives by the court, and notice by publication is to be given Mrs. Nichols son.

### IS NEARLY NINETY

Yet William Stacy Plants 80 Acres in Wheat Alone.

William Stacy, nearly 89 years of age and looking much younger, is visiting relatives in this section. He is now located on a 100-acre farm at La Crosse, Kansas, where he moved from here in 1881. In this section Mr. Stacy farmed the old Saline River place which is now owned by John White. This fall Mr. Stacy harvested 170 bushels of wheat on 70 acres. Then he showed that he is still active, he is a two-horse team and sows 90 acres in wheat himself. A neighbor of Mr. Stacy harvested 1 acre of 31.99 bushels of wheat from 700 acres.

Many changes have occurred since Mr. Stacy was here in this section on Oct. 14, particularly expressed with the growth of Scotland to 181. Mr. Stacy ran a carding machine in the mill of Fullerton and Wade at Fountain City, as Scotland was one known.

Mr. Stacy has been a subscriber to The Courier since it was founded. He thinks it is a fine paper and he never misses an issue.

### FARMING STATE.

Pennsylvania Ranks Among Highest in the United States.

In the great sisterhood of States Pennsylvania is not generally thought of or spoken of as an agricultural State, yet the fact is that in this class it is in the very front rank, as will be shown by the splendid display which the Secretary of Agriculture, the Hon. N. B. Cuttfield, will have at the Land Show in the Duquesne Garden, Pittsburgh, Pa., from Oct. 17 to 20 by the National Land and Irrigation Exposition under the auspices of the Gazette Times and the Chronicle Telegraph.

Pennsylvania is not only prominent in the matter of its mineral products and manufactures, but the latest statistics show they are recent, showing that it still continues to hold its high distinction as also a very great agricultural State as is proven by the estimates just put forward with comparative sources to the effect that the 1910 wheat crop of Pennsylvania will be 30,000,000 bushels. This forces recognition of the fact that despite the extent of its area, which is in closed in mountain ranges, Pennsylvania is not far behind, but a very prompt figure indeed in the national economy and wealth. This prominence is not only because of the great number of the output but by reason also of its quality.

The fact that at the present time improved farming land in this State is greater than the average for the nation as a whole and far greater than many of the States which boast a large number of farms, and greater acreage is not without its significance.

Consider for a moment what 30,000,000 bushels wheat crop in Pennsylvania means. It not only will add between \$30,000,000 and \$120,000,000 to the wealth of the farmers but it indicates that our production of this grain is exceeded only by the five or six great wheat growing States of the Northwest which are expected in this crop year.

But add to this, in other strata, facts that we normally produce every year nearly twice the volume of corn about an equal quantity of oats and a hay crop mounting in value less year to over \$100,000,000 when we consider that we slightly exceed the average wheat crop.

But add to this, in other strata, facts that we normally produce every year nearly twice the volume of corn about an equal quantity of oats and a hay crop mounting in value less year to over \$100,000,000 when we consider that we slightly exceed the average wheat crop.

But add to this, in other strata, facts that we normally produce every year nearly twice the volume of corn about an equal quantity of oats and a hay crop mounting in value less year to over \$100,000,000 when we consider that we slightly exceed the average wheat crop.

But add to this, in other strata, facts that we normally produce every year nearly twice the volume of corn about an equal quantity of oats and a hay crop mounting in value less year to over \$100,000,000 when we consider that we slightly exceed the average wheat crop.

But add to this, in other strata, facts that we normally produce every year nearly twice the volume of corn about an equal quantity of oats and a hay crop mounting in value less year to over \$100,000,000 when we consider that we slightly exceed the average wheat crop.

## PENNSYLVANIA IS GIVING REBATES?

Eleven Coal Companies Make This Charge in Suit Entered.

## DISCRIMINATION AGAINST THEM

The Plaintiffs Charge the Railroad With Granting Rebates to the Berwind White and Other Coal Companies in Big Shipments

ALTOONA Oct 12—Charges of rebating and discrimination on a large scale are involved in a suit for damages instituted against the Pennsylvania railroad by eleven separate coal operating concerns in this State and which will be called for trial before Justice Holland in the United States Circuit Court in Philadelphia this week.

The trial, which promises to be productive of sensational testimony on the part of those who seek to recover damages on the grounds that the Pennsylvania railroad has acted unlawfully in the matter of the distribution of coal carrying cars as well as transportation of the same, is creating widespread attention.

Shipments aggregating many millions, it is charged by the complainants, were affected as the result of alleged unfair treatment accorded them by the Pennsylvania railroad in the specific complaint upon which the suit was based. It is charged that the Pennsylvania railroad granted rebates to the Berwind White Coal Mining Company and others, and in addition discriminated against the firms seeking damages in the matter of car allotments.

## SHERIFF IS BARRED.

Not Allowed to Pick Jury in Trial of Deputies at Greensburg

GREENSBURG Oct 12—A 200 yesterday afternoon there came a hull in the trial of the Yukon case in which 18 deputy sheriffs appealed for trial charged with killing Paul Reno on Sunday evening May 8. When the ninth man was selected on the jury the fact was evident that the panel was exhausted. Attorneys for the Commonwealth had exhausted their 20 challenges and the defense panel challenges yet left.

Sheriff J. E. Shields was present in court and was the proper official to summon a venire of 24 men but as the defendants had been deputy sheriffs Assistant District Attorney N. A. Corr argued to the court that it might work injury to the side of the Commonwealth to have the sheriff execute the special writ of venire to be used as jurors to try his own points.

Coroner H. A. McMurry would have been the next official to secure jurors but he was called away from court at 3 o'clock to attend a man who was seriously injured on the railroad. He was communicated with and was in court at 11 o'clock.

Judge Doty followed the letter of the law by making an order uponing two good citizens to summon the special venire of 24 jurors. He appointed Clerk of Courts John M. Hawk and Benjamin Brown to go over the county and bring in the men at 9 o'clock Wednesday morning.

## HAS GOOD YEAR.

Peoples Building and Loan Association in Prosperous

The annual meeting of the Peoples Building and Loan Association was held last evening at which the officers and directors were elected.

President Henry Goldsmith Vice President Joseph A. Mason Secretary, Alex B. Hood Treasurer Bert J. Thomas Auditors James B. Stader and J. C. White, Directors S. R. Goldsmith Dr. C. S. Horner, T. B. Kurtz, Robert Welsh, Joseph A. Jason, Henry Goldsmith, W. D. McGinnis, William Bowlin, Peter Duffy, Alex B. Hood.

During the past year the company has loaned \$1,100,000 on mortgages. The profits during the past year were \$87,520.

The company has had a very prosperous year and expects to do equally well during the ensuing twelve months.

## GANS BUYS DISTILLERY.

Pays Charles S. Smith \$45,000 For Johnson Plant

UNIONTOWN Oct 1—Fifteen thousand dollars is the price paid by George G. Gans of Uniontown to Charles S. Smith of Germantown for the Johnson distillery in the Second Ward of Uniontown according to a deed dated October 1 filed this morning.

The site includes several buildings comprising what was formerly known as the Johnson distillery. There is 111 acres in the lot and 1100 feet front.

All coal rights are reserved, thus having been retained by T. V. Thompson by Daniel J. Johnson in 1906. The lease was transferred this morning.

B & O Station for Sharpsville Work will be started next week at Sharpsville, Pa. on a new passenger station to be built by the Baltimore & Ohio railroad.

## MINING DEVELOPMENT

Of the Allegheny River Mining Company is Being Planned

Plans for extensive mining development work of the Allegheny River Mining Company, in the vicinity of Riegelsburg and Red Bank, Pa. which is to follow the completion of the Pittsburgh, Shawmut & Northern which has been under construction all this year are ready to take advantage of the new railroad as soon as the new road is in operation to the Allegheny river.

The work of opening up the new field is expected to begin soon after the first of the year. No contracts for the new development will be made this fall, however the construction work on the railroad not being far enough advanced. The railroad follows the line of Mahoning creek to the Allegheny river. The development along this line will probably be the most extensive enterprise in the Pennsylvania bituminous fields next year.

Bureau of Mines Wants Employees

Civil service examinations will be held October 26 for the purpose of getting people on the eligible list in the Bureau of Mines. Examination for the following positions will be held: stenographer junior, typewriter, machinist, helper chemist, mining engineer junior, foreman, junior chemist, junior computer and laboratorian and aid.

## RECENT PATENTS

Compiled Specially Each Week for The Weekly Courier

The following recently granted patents of interest to the coal and coke trade are reported expressly for The Weekly Courier by W. G. Doolittle, Patent Attorney, Park Building, Pittsburgh, Pa. from whom copies may be procured for 1 cent each.

Pulley brake and grip C. H. Bentwell, Pittsburgh, Pa. and W. H. Bentwell, New York, N. Y.

Mine prop J. H. F. Kretschoff, Dusseldorf, Germany.

Tomato hill C. F. M. M. in Connecticut, George Dimick, Jersey City, N. J.

Roofed track mill J. F. Damron, Roanoke, Va.

Freezing of distilled coal, L. W. Alsworth, East Orange, and C. L. Davis, Montville, N. J.

Blasting bar J. F. J. Hartung, Curacao.

Air and water feed meter C. F. Carpenter, Newark, N. J.

Method of mining coal H. A. Kulin, Pittsburgh, Pa.

Mechanical coke oven F. W. Wood, Louisville, Ky.

Hydro-pneumatic pump T. L. Gardner, Gardner, Ohio, and J. L. Domingo, Domingo, N. Y.

Shaving machine C. L. Class, Joplin, Mo.

Coke furnace W. H. Mueller, Detroit, Mich.

Brass ring T. V. Andrew and E. F. Goodrich, Elgin, Ill.

Mine insulator C. W. Speckman, Monaca, Pa.

Bit for mining machine C. N. Burton, Harrisburg, Pa.

Miner's lamp and box G. W. Nixon, Marion, Pa. and F. W. Dunn, Marion, Pa.

Water regulator H. F. Knapp, Philadelphia, Pa.

THURSDAY MORNING, OCT. 18, 1910

COAL AND COKE  
PRODUCT ON AND POLITICS

The announcement that a serious shortage in the bituminous coal supply is expected this winter is something of a surprise in the face of a counter statement made a few days ago that the Pittsburg district had avoided the danger by the action this summer. It also suggests some interesting facts concerning the growth of the coal and coke trade and the disturbing effect of politics.

The country is growing and with its growth the demand for coal and coke has a natural increase. The statistics show that the bituminous coal production of this country has mounted higher every year due not only to the increasing demands of domestic consumption, but also in a large measure to the consumption of expanding industries. The following figures give an idea of the extent of this increase:

Year	Tons	Tons
1885	6,000	1
1886	10,000	1
1887	15,000	1
1888	20,000	1
1889	25,000	1
1890	30,000	1
1891	35,000	1
1892	40,000	1
1893	45,000	1
1894	50,000	1
1895	55,000	1
1896	60,000	1
1897	65,000	1
1898	70,000	1
1899	75,000	1
1900	80,000	1
1901	85,000	1
1902	90,000	1
1903	95,000	1
1904	100,000	1
1905	105,000	1
1906	110,000	1
1907	115,000	1
1908	120,000	1

would the Democratic party do them any better? With its declarations on the 1910 before us and our painful experiences under Democratic tariff policies of a similar nature in the past how can we man of any station in condition except in any behalf can escape the conviction that only himself and his family are voting the Republican ticket?

He who has not learned from EXPERIENCE is not WISE.

## THE REJUVENATION OF THE LITTLE KANAWHA SYNDICATE

The announcement that the Little Kanawha Syndicate has agreed to activity in that is \$200,000 acres of coal will be developed shortly by the extension of the Monongahela River Railroad which is jointly owned by the Pittsburgh & Lake Erie and the Pennsylvania railroads indicates that the community of coke region railroad interest has been established in recent developments in connection with the extension of the Monongahela River Railroad.

The third class city movement in Fayette County is only a fresh illustration of the fact that while Councilville is not the wealth of Unontown it is railroad ownership. The ownership and operation of coal mines is railroad but is possible by the ownership of the Little Kanawha property has been arranged to meet this requirement.

The statistics also show that the increase has been steady and maintained under Republican administration and has been checked under Democratic rule and Tariff. Revenue Under Harrison in the McKinley Tariff it remained at \$1.00 million and promptly dropped to \$16 million tons under Cleveland and was Wilson Bill. When McKinley came into office in 1897 and the Dingley Tariff was enacted in 1898

## THE THIRD WEEK IS POSTPONED.

**Trial List of Civil Court on  
Attorneys' Petition  
Goes Over.**

### MOTION FOR A NEW TRIAL

**In the Case of Basil A. Brownfield  
Against Basil B. Brownfield, His  
Cousin—Prothonotary McClelland Is  
Appointed a Guardian.**

UNIONTOWN, Oct. 11.—A petition signed by 24 attorneys was presented to the court yesterday by Attorney George Jeffries, asking that the third week of civil court be continued. An order to this effect was made, and the sheriff notified to notify the jurors not to appear.

The trial list for next week was called yesterday morning and a large number of the cases had either been settled or were not ready for trial. It was the opinion of the petitioners that there were not sufficient cases left to justify the expenses of bringing and keeping the jury empannelled for next week. Of the 35 called, nine were ready for trial.

#### Motion for New Trial

Motion for a new trial in the action of Basil A. Brownfield against Basil B. Brownfield by the plaintiff attorneys. This case was tried last week and a verdict found in favor of the defendant. The parties involved in the case are cousins, and the plaintiff avers that while in a drunk condition he signed a deed conveying certain property to Basil B. Brownfield. The defendant claimed he bought the property, on which was built old Fort Gaddis, for the purpose of preserving the ruins.

#### Renner Appointed Master

On motion of Attorney John Dugan, Jr., J. Kirk Renner of Connellsville was appointed master in the divorce case of John Galli against Anna Galli. Descretion is given to the master to decide some time ago. The couple resided in Redstone township.

#### A Quick Trial

Record time was made in the action of Mrs. Katherine, the administratrix of the estate of Fred Hill, her son against C. H. Blakely of Brownsville. An appeal by the defendant, Mrs. Hill, was granted letters of administration on July 29, following the death of her son at Brownsville on June 27, 1909.

In closing Hill's account she found a bill of \$175.97 for automobile supplies. Blakely was the debtor. He denied that he owed this amount but admitted owing \$23.87. Both sides took the witness stand yesterday, and the defendant attempted to prove his claim with checks which he produced. These, however, showed the amount to be \$75.74. Judge Van Swearingen instructed a verdict for this amount, closing the case just 30 minutes after Attorney T. H. Hudson opened for the plaintiff. C. C. Carter of Brownsville represented the defendant.

Hill died very suddenly, leaving no will.

#### Guardian Appointed

Prothonotary William McClelland was appointed guardian of Albert Yoho, for the time being, and October 25th set as the day for hearing of the application for appointment of a guardian of Joel G. Yoho following the presentation by Attorney D. W. McDonald, of the petition of John K. Yoho.

Joel Yoho aged 57 is a resident of Franklin township, having resided in this county for 5 years. The petitioner who is a brother, represents that Joel has become feeble-minded and so much so defective that he is unable to care for his property. It is feared that he will dissipate and lose it or become the victim of designating persons. His wife, Sadie, also lives in Franklin township. There are five children all of age but one, Albert. The two brothers and one sister are living. All will be entitled to be present at the hearing on the 25th.

#### Case Will Be Tried

Because James Hoke the prosecutior, for George Hills was not present when the case was called for trial on September 18th, an order was made discharging the defendant, and placing the costs on Hoke.

It turned out that the Commonwealth had neglected to subpoena the witness and neglected to subpoena former order was revoked placing the case on the December trial list. Hills is charged with being a nuisance and common scold.

#### Constables File Bonds

Jacob Stover and Thomas Bevan, recently appointed constables in the second and third wards of South Brownsville, respectively, yesterday filed bonds in the sum of \$1,000 each, with Antonio V. Schiotto and Frank E. Adams as sureties.

#### Statement Filed

Attorneys Johnson and I. filed a statement in the suit of George E. Fretts against Max Newhouse to recover possession of a \$140 cow. On the 12th day of September he claims Harry Burkett, his surety, drove the animal away without his consent and delivered her into the possession of Max. She refused to return it and Fretts secured a writ of replevin.

#### Appealants Entered

The Rocks Coal & Coke Company yesterday entered an appearance in the suit brought against them by Fred and John Bierer against Margaret W. and John W. Uniontown. The action is brought to recover on a judgment of \$90.

Now we are defending  
Action was brought to recover  
\$1,612 triple damages alleged to  
have been sustained by the plaintiffs  
when the company mined 26 tons of  
coal from their property. The coal  
was valued at \$10.125 per according to  
Fates and Henderon who claim the  
defendant knew the property which  
is located in Ligonville and Red  
stone townships did not belong to  
them.

A New Constable  
Frank L. Moore was appointed to  
take the place of Constable John  
Lecoy in South Union township.  
Fates was appointed to fill  
on the unexpired term of Sheridan  
Crawford Green. Deacon has accepted  
the position as his predecessor at  
the Duquesne Hotel in Union. The  
magistrate William Miller was  
granted a license two weeks ago.

The Court Commissioners were  
yesterday directed to pay the costs  
in the matter of the petition of Anna  
Blough to inquire into the status of  
Lucinda Williams. A rule was  
served on the Commissioners last  
week to show cause why they should  
not pay the costs in this case and  
a master was filed it was made ab  
solute.

On February 21, 1910, the court  
made in order appointing Dis. T. G.  
Lindell and A. C. Hoffman and Atte  
Fred D. Munson as commissioners  
to examine Lucinda Williams who  
lived at the home of E. L. Hodge in  
Connellsville. The report of the  
commissioners was filed and  
is as follows:

#### Greer Wants New Trial

A motion for a new trial was filed  
today by Attorney R. P. Kennedy in  
the case of David Greer against the  
Citizens Water Company of Scotland  
Grove for the reasons given in the  
order to the court to pay costs.

Greer wants \$1,000 damages alleged  
to have been sustained when the  
Greene's dam, in Union township  
burst during 1909. The case was tried  
last year but was dismissed by  
Judge Umber on grounds that the  
company was not responsible as the  
company had been instructed by a com  
petent contractor.

#### Divorce Handled Down

Dis. E. L. Hodge, who was  
granted a divorce this morning by  
Judge J. V. O. Swartz, in the  
master's report was submitted. His  
wife showed that her husband  
John W. Hodge, who is present  
serving time in the Western Peniten  
tary for larceny. Mrs. Hodge, who  
is his only wife, has been  
separated from him for a month  
and has been living in the Western  
Penitentiary since his marriage.

#### Marriage Licenses

Joseph H. Lane, aged 27 and Emily  
B. Sutton, aged 28, both of Brum  
field were issued a marriage license  
this morning. Also Andy Dimes and  
Hermine Zoldot of Lambert

#### Today's Session

The court of the second term  
of Civil court was in session this morn  
ing, for about ten minutes when a  
judgment was taken until 9 o'clock  
yesterday morning. The jurors were  
excused with instructions to return  
at this time.

Three cases were expected to be  
ready for trial today, the most im  
portant being the divorce case of Wil  
ham T. Stofford against his wife, Est  
elle of Uniontown. Carl and Carl  
have been retained by the defense  
team. Mr. Carr is assisting at a mu  
tual let at Washington county today  
in the case of a holder of a mutual  
trust. Attorney George Patterson will  
be for the plaintiff.

#### Broke His Neck When Limb Gave Way and Died Instantly.

#### WIFE SAW THE ACCIDENT

**She and Others Were Picking Apples  
Some Distance Away When the Dis  
tressing Fatality Occurred—Funeral  
on Thursday.**

Pulling from the limb of an apple  
tree which broke under his weight  
a man, Kefler, aged 23, of Ligon  
Valley, was instantly killed yesterday  
yesterday afternoon after pulling the  
tree down after it had fallen.

Three cases were expected to be  
ready for trial today, the most im  
portant being the divorce case of Wil  
ham T. Stofford against his wife, Est  
elle of Uniontown. Carl and Carl  
have been retained by the defense  
team. Mr. Carr is assisting at a mu  
tual let at Washington county today  
in the case of a holder of a mutual  
trust. Attorney George Patterson will

## TYPHOID GERMS INFEST WATERSHED

Of the Company That Supplies Scottdale With Water.

### HEALTH OFFICER'S ACTION

Demands That the Water Company Furnish No More Water From Spruce Creek Along Which Several Cases of Typhoid Are Located

SCOTTDALE, Oct 6.—Flesh reason for the insistence of the Board of Health that all water for domestic purposes be boiled for half an hour and the dead of constant patrol of its watershed was bought out last night. In an inspection of the Spruce Creek watershed from which water of the Citizens Water Company is supplied directly into Scottdale Health Officer F. F. Goshorn found startling conditions yesterday afternoon. He found that there are four cases of typhoid fever along the creek and that there has been no care whatever taken of the discharges from the sick rooms but that they have been emptied out onto the ground it naturally drawn down into the water that in part of the supplier for Scottdale consumption.

The continued bad weather has been helpful in preserving possibly the contamination that would result from this out with the first rains the germs in the soil will be released and will be washed into the water, in all probability.

Officer Goshorn notified the water company last night to close off any Spruce Creek water coming into Scottdale. The case has been going on for some time but seem not to have been reported. The are two cases it is said in one house where Crus Shatzel is about recovering from the fever. There are two cases at the home of Henry Clark Norman Clark aged 18, and George Clark aged 7. There is also one other case reported from Shatzel.

Two members of the Shatzel family, including a wife removed to the Mt Pleasant home yesterday afternoon. They are Mrs. Wm. W. Shatzel who came from Turtle Creek and Edward Shatzel, Chas. Shatzel, all at home and there have been two other cases.

### VERDICT RENDERED

For Defendant in Case Against City's Water Company

UNIONTOWN Oct 6.—After spending two days in trying the case of David Queen against the Citizens Water Company of Scottdale Judge R. E. Embel this morning instructed a verdict in favor of the defendant.

Testimony on both sides of the case was heard yesterday afternoon. Defense witness though the damage sustained to the Queen property when it was flooded by the bursting of the Greentree dam July 11, 1904 amounted to from \$3,000 to \$4,000.

The defense rested at 1:30 and asked for binding instructions on certain points of law. Adjournment was taken until this morning when the points were argued before Judge Embel in the small court room, following which the jury was instructed as follows: "When the defendant has employed a competent and skilled independent contractor to do certain work the employer is not liable for faults committed."

The jury was discharged. It is said that the company will probably pay Queen the amount then or a witness has lost.

This is the last of several suits growing out of the flood, all of which have been settled without going to trial.

### AN ATTACHMENT

Is Awarded For Eli G. Shupley, a Connellsville Man

UNIONTOWN Oct 6.—For failure to comply with the order of court Anna Herter of Connellsville filed a petition Friday afternoon asking that an attachment be awarded against Eli G. Shupley or contempt. The petition, filed on behalf of an adopted daughter, Rachael Irene Herter, was granted.

On July 1st, 1909 she presented a petition for the same for that no account.

The citation was served on June 8, 1909, but he made no answer. An order was made requiring in account to be filed. Still nothing was done and on September 7th 1909 in answer to a petition for attachment a rule was granted on Shupley to show cause why he should not be adjudged in contempt of court. Four days later the rule was served, personally and no one no answer thereto.

Sterling Higbee and Matthews are acting for the petitioner.

### Licensed to Wed

Adam Huth age 45 a cooper of Freeport, Pa., and Ross Ellen Bobb, aged 18, were issued a marriage license Saturday. Miss Bobb is the daughter of Mr. and Mrs. E. J. Bobb of Adelaide, N. J. Huth has been married once before, his former wife dying in 1897.

### A RECORD MADE

By Superintendent of Bridges Schenck in Replacing S & C Bridge

Superintendent of Bridges and Buildings W. S. Schenck of the Connellsville division of the Baltimore & Ohio railroad established a new record for placing a bridge in position Friday when he placed a span 106 feet long, near Hooversville on the Somerset & Cambria branch in 40 minutes. The bridge was of the through girder type. The old bridge was removed and the new one put in place in exactly half an hour from the time the rails were disconnected until the line was again thrown open for traffic. The best previous record was 45 minutes on a smaller bridge over Wills creek at Moxell.

The work at Hooversville was done with six rails operated by hand. The two bridges were spliced together and placed on rollers designed by Mr. Schenck.

With 20 carriages and 12 trackmen, the work started at 1:00 the trains were disconnected and at 1:17 the old bridge had been moved aside. At 1:25 the new span was in place and at 1:35 it was lowered to the rollers. Promptly at 1:33 the tracks were connected and traffic resumed.

The span of 106 feet is 10 feet high and weighs 360,000 pounds. The bridge that was removed weighed 130,000 pounds. Foreman L. H. Newmeyer of Cumberland L. F. Bell of Roosa wood and J. R. Kistman of Connellsville assisted in the work while John Lindsay of town assembled the gear with which the work was done.

### SUIT FOR \$100,000,

Mrs. Louise Moser Asks For Damages From B. Frank Smith

Mrs. Louise Moser wife of Evans Smith entered a civil suit Thursday claiming \$100,000 damages. Mrs. Moser brings suit in her own name and one half of her two still children made claim to the wife of the bullion.

The work around Rockwood is well started and a big force is working between Rockwood and Garrett. Work has also been started on the large bridge at Salisbury Junction, Tolley Brothers and W. H. Wilkes Company are making rapid progress on their contracts. East of Moxell the same good time is being had.

Between Confluence and Connellsville all of the contractors are making good time with record breaking speed. All down the river gauge are having cutting and filling along the right of way. Execution time has been made by Louis G. Ladd and W. S. Hill Construction Company between Indiana Creek and Union Junction.

### DISTILLERS APPEAL.

Greene County License Case Argued in Superior Court

PHILADELPHIA Oct 1.—A big meat was heard in the Superior Court last Wednesday in the appeal of Frank E. Lippocott from a decision of Judge Ingall in the Court of Queen of Sessions of Greene County refusing his application for a distillery license in Franklin town ship. The distiller, for which it is claimed was asked to be admitted into the bar, has had considerable experience in the National Guard.

Frank Lippocott's argument was voluntary. He is asked the existence of the corporation only upon condition that he be granted to retain his employment. In his retirement he can and discontinuation of the company are enthusiastic over the prospect of a successful command on the part of D. Kidd.

### SUES FOR FURNITURE

Brought Contingent on the Granting of a Liquor License

UNIONTOWN Oct 8.—(Special) Charles F. Goldsbohm of Auglaize, yesterday afternoon brought suit against Thomas R. Hiller, a Newell hotel proprietor to recover possession of furniture to the value of \$230.

The plaintiff says Hiller has made default in payment of the installments on the furniture he has been using by which the balance due is to be paid and May 1, 1910 if a liquor license is granted. If refused at \$31 a month until the entire account was settled.

The license was refused. Carr and Carr filed the declaration for Goldsbohm.

### RECIPES FILED

In the Action Brought Against William Beeson

UNIONTOWN Oct 7.—In the action against William Beeson by Sarah L. Chick and Eliza J. Crossland, claimants trustees in the estate of Oliver G. Chick deceased, plaiants for judgment were filed this morning by attorney R. M. Corrill for want of an appearance filed and affidavit of defense.

The suits were brought to recover on two judgments \$1,195.70 and \$780.10 both with interest from February 19, 1910.

### MURDER AT WINDSOR

John Davies a man was instantly killed on Sunday evening in his house in Windsor following a drunken excess of the inmates of his house. Peter Vlasic who is charged with the murder is in the custody of the police.

Low Fares to Pittsburgh

## FAST TIME BEING MADE ON NEW ROAD.

### Contractors Seek to Get as Far Ahead as Possible Before Bad Weather.

### ALL CAMPS ARE FULL OF LIFE

From Confluence to Connellsville Every Man is On the Job All the Time—Bridge Builders Going Ahead With Their Big Contracts For Spans

construction work on the Western Maryland is being rushed with a view to getting as far ahead as possible before bad weather sets in. It will not be possible to make the same progress during the winter as has been done for the past several months and the contractors are making the most of the excellent weather conditions that have prevailed from their stand point. The rails will fall during last night and today will help matters rather than hinder them.

Day & McDonald the bridge builders have been making dirt is in the vicinity of Confluence where they are constructing a big concrete viaduct. During the fast 10 days they have put down 2,000 cubic yards of concrete work which is a big bunch of it.

Louis J. Dits has completed one portion of his contract the cut and fill at Harnedsville and has moved his steam shovel across the Cassel Creek where it is biting its way through Owl Hill.

The work around Rockwood is well started and a big force is working between Rockwood and Garrett. Work has also been started on the large bridge at Salisbury Junction, Tolley Brothers and W. H. Wilkes Company are making rapid progress on their contracts. East of Moxell the same good time is being had.

Between Confluence and Connellsville all of the contractors are making good time with record breaking speed. All down the river gauge are having cutting and filling along the right of way. Execution time has been made by Louis G. Ladd and W. S. Hill Construction Company between Indiana Creek and Union Junction.

### KIDD ELECTED

Captain of Company D Without Any Opposition

Dr. A. H. Kidd was unanimously elected Captain of Company D at a meeting of the company in the Armory last evening. Dr. Kidd, who is a graduate of the University of Illinois, has been a member of the company since 1901 and has been a member of the Illinois State Guard since 1903.

Although Kidd has been a member of the company for a number of months and prior to becoming Captain he has had considerable experience in the National Guard.

Frank Lippocott's argument was voluntary. He is asked the existence of the corporation only upon condition that he be granted to retain his employment. In his retirement he can and discontinuation of the company are enthusiastic over the prospect of a successful command on the part of D. Kidd.

The records of Company D for the past year show that the company has been in the same condition as the year before. They have had no new members and no old members have left.

## VAST COAL TRACT WILL BE OPENED.

Project of Former President  
of Wabash to Be  
Realized.

### WILL AFFECT FAYETTE COUNTY

By Extension of Railroad Up the River  
From Brownsville to Connect With  
Road That Will Tap 90,000 Acres  
of Kanawha Syndicate.

Long in a state of dormancy because  
of a tie-up in the voting power of its  
stock between three great railroads,  
a great coal field of 90,000 acres in  
West Virginia, now valued at more  
than \$20,000,000, is at last to be de-  
veloped and its natural products will  
be sent out to the furnaces of the  
world with Pittsburgh as the outlet.

The first inking financial Pittsburgh  
had of the recent plans for the de-  
velopment of this rich region was  
when a meeting was held in Pittsburgh  
Wednesday afternoon to approve the  
rights-of-way for the building of a  
railroad to connect this land of wealth  
with the great systems touching this  
city.

The Little Kanawha Syndicate is  
the name of the holding company for  
these immense coal lands. Fifty per  
cent of its stock is held by the Pitts-  
burgh & Lake Erie Railroad; 25 per  
cent by the Pennsylvania Railroad, and  
25 per cent by the Baltimore & Ohio Railroad.

The present plan for the opening up  
of the way from this rich mining  
region is the building of a small rail-  
road between Fairmont, W. Va., and  
the Pennsylvania State line along the  
line of the Monongahela river.

At this point it would meet the Mon-  
ongahela railroad—it is the property  
of the Pittsburgh & Lake Erie and the  
Pennsylvania companies—which will  
extend its tracks to the State line to  
meet this new road by building a  
long piece of track and a bridge  
across the Monongahela river. This  
railroad has its beginning at a point  
near Brownsville and its terminus at  
Pittsburgh's Landing.

The Little Kanawha Syndicate has  
been quietly going along buying  
rights-of-way for the building of this  
contemplated railroad and at the present  
time has selected options on or  
purchased outright sufficient property  
to open more than half the way to  
the new line.

It was for the consideration and ap-  
proval of some of these rights of way  
that the meeting was held in Pitts-  
burgh, and it was attended by J. T.  
Blair, acting treasurer and secretary  
of the Kanawha System, S. P. Brady,  
its chief engineer, and Colonel James  
M. Schoemaker, vice president of  
the Pittsburgh & Lake Erie Railroad  
Company.

"We have purchased a large num-  
ber of rights of way," said Blair. "We  
are meeting with considerable diffi-  
culty and will have to condemn some  
of the property. We are settling all  
we can without condemnation pro-  
ceedings, however."

The opening of this rich region and  
the giving of its luminous products  
to the world was long the dream of  
Joseph Ramsey, former president of  
the Wabash railroad. Purchasing this  
land of coal, he immediately started  
to make plans for its development and  
the transportation of its products by  
a system of smaller railroads to con-  
nect with the Wabash S. stem.

His original plans called for the  
erection of a railroad between Bel-  
lington, W. Va., and Zanesville, O., con-  
necting at the latter place with the  
Wheeling & Lake Erie, a subsidiary  
of the Wabash railroad. He also planned  
to build from Belington a road  
connecting with the Western Maryland  
railroad, and another smaller  
railroad system to be known as the  
Greene County Railroad, to pass  
through Washington, Pa., and Canons-  
burg, Pa., and join with the Wabash  
railroad near Pittsburgh.

Ramsey, in an effort to develop his  
"Promised Land," as it has often been  
called, purchased the Little Kanawha  
Belington Northern and the Buck-  
hannon Northern railroads. In addition,  
he arranged for the building of the  
Zanesville, Marietta & Parkersburg;  
the Parkersburg Bridge & Terminal,  
and the Hinsdale & Eastern.

Much work on the grading and lay-  
ing out of these smaller railroads and  
toward the improvement of the three  
he purchased had been accomplished  
when Ramsey was deposed as the  
head of the Wabash and succeeded by  
Frederick A. Delano of Chicago.

Ramsey offered the properties in the  
West Virginia district to Gould, the  
Wabash owner, but met with refusal.  
His price was \$6,000,000. His proposi-  
tion was eagerly accepted by the  
Pittsburgh & Lake Erie railroad. With  
the immense fortune within its grasp  
and everything mapped out for the  
pushing of the development of the  
properties, the P. & L. E. sold 25 per cent  
each of the stock to the Pennsylvania  
and Baltimore & Ohio railroads.

With the voting power thus tied up,  
the wealth of that section has been  
in a lethargic state for a long interval.  
The sudden action in the case of the  
opening of this rich region has given  
rise to the supposition that some sort  
of an agreement has been reached  
between the big systems. The fact that  
the contemplated road for which  
rights of way are being secured will  
connect with the Monongahela rail-  
road, which is owned by the Pittsburgh  
& Lake Erie and the Pennsylvania,

has been taken by many as grounds  
for the belief that these two last-  
named great corporations have allied  
their holdings against those of the  
other, the Baltimore & Ohio.

### SALE DENIED

Of the Thompson Coal Holdings in  
Three States.

A report was received in Pittsburgh  
Thursday to the effect that Josiah V.  
Thompson of Uniontown, millionaire  
coal operator and banker, had disposed  
of his entire coal holdings in Penn-  
sylvania, Ohio and West Virginia to the  
Standard Oil Company. The rum-  
ored deal was said to involve \$35,000,-  
000, making it the biggest coal trans-  
action ever known in the United  
States.

The Greene county holdings aggre-  
gate about 136,000 acres, those in  
Washington county 40,000, while six  
counties in West Virginia contain 275,-  
000 acres. It was about 15 years ago  
that Mr. Thompson began purchasing  
coal land in Washington and Greene  
counties and in West Virginia. Most  
of it is said to have been bought at  
\$10 to \$100 per acre.

When questioned at his home in  
Uniontown Thursday Mr. Thompson  
said: "That's news to me. It is not  
true that I have disposed of my coal  
holdings to the Standard Oil Company  
or to any other company or individ-  
ual."

### NO OPPOSITION

To Lake Erie Plans at Dawson From  
the Commissioners.

UNIONTOWN, Oct. 7.—Should the Pitts-  
burgh & Lake Erie railroad decide to  
carry out their plans for ruling  
the Dawson bridge they will in all  
probability find little to hinder them.

Attorney R. F. Hopwood stated this  
morning that he had not been ap-  
proached on the matter, but said if  
the company wished to make the im-  
provement at their own expense, the  
probable would not stop them.

Commissioner John S. Langley and  
F. H. McClelland both thought the  
idea a good one, though the latter  
could not see how the bridge could be  
raised according to the figures given  
out last week. Each said they would  
likely allow the company to go ahead  
with the work.

The grade crossing at the foot of the  
road between Vanderford and Dawson  
is decidedly dangerous, as the highway comes down a steep  
grade on a curve. A number of acci-  
dents have occurred at this point, but  
during the last two years a watchman  
has been stationed there. It is planned  
to raise that end of the bridge  
over the tracks at a cost of between  
\$18,000 and \$30,000.

### FAYETTE FACTORIES

Several Hundred Window Glass Work-  
ers Will Go To Work.

UNIONTOWN, Oct. 6.—Several hun-  
dred glass workers of Fayette county,  
employed in the factories at Union-  
town, Fairchance and Point Marion,  
will return to work Sunday night, Octo-  
ber 16th, at 12 o'clock, after a few  
months layoff. Fires have been burning  
and the tanks of the five window  
glass factories for several days,  
and according to reports, everything  
is in top shape for the first blowing.

At Fairchance and Point Marion  
about 200 men are employed, while  
Point Marion more than 500 men  
work in the three factories. There  
are two bottle factories in the county,  
one at Point Marion and the other in  
Uniontown. Both of these began op-  
eration early in September. The Uniontown  
factory employs about 100 men.

### ON INSPECTION TRIP.

General Manager J. B. Yohe and Party  
On West Side.

J. B. Yohe, general manager of the  
Pittsburg & Lake Erie railroad, ac-  
companied by several high officials  
passed through town Thursday after-  
noon about 5 o'clock in Mr. Yohe's  
private car on their return from an  
inspection trip up the Monongahela  
valley and the Monongahela railroad  
from Brownsville to Uniontown.

The party made a short stop on the  
West Side and then went on to Dick-  
erson Run where the yards and pros-  
pective improvements were looked  
over.

### BULGER COAL LAND SOLD.

Pittsburg Broker Disposes of Forty-  
Acre Tract.

Forty acres of coal land near Bulger,  
Washington county, have been sold to  
E. Zimmerman to the Bulger Coal & Coal  
Company for \$4,000. The land ad-  
joins other holdings of the company,  
the opening of whose mine is at Bul-  
ger, on the Panhandle railroad.

Want Free Bridge.  
Proceedings have been started in  
court toward the securing of a new  
bridge over the Monongahela river be-  
tween West Brownsville, Washington  
county, and Brownsville, Fayette  
county.

PLATFORM AND SELF DUMPING.

LADDERS, SCREENS, CHUTES, BULL WHEELS, HEAVY  
GEARS AND SPECIAL MACHINERY.

We manufacture none but the highest grade machinery, using only the best materials to be found  
in the market in its construction.

We are also prepared to accurately duplicate promptly any part of any of our machines.
